PRESS RELEASE
FOR IMMEDIATE RELEASE

CANCER INCORPORATED

One of America's richest, most powerful, and profitable industries is CANCER INCORPORATED, a network of inter-related corporations that profit from causing cancer, treating cancer, and burying the victims of cancer.

Investigation will reveal that millions of unsuspecting Americans feed CANCER INCORPORATED in two significant ways:

1. They invest in the corporations that are causing our cancer epidemic. Many 401k retirement plans own millions of shares in the tobacco and chemical industries. How ironic that thousands of citizens who dream of happy days playing golf, fishing or traveling upon retirement, will die from cancer before they have a chance to cash in on their investments in CANCER INCORPORATED.
2. They become junkies, addicted to the very agents that will eventually kill them from cancer. They chain smoke, saturate their homes, lawns, and gardens with cancer inducing chemicals. They contribute to the depletion of the ozone layer that protects them from cancer. They consume chemical laden junk food that contributes to the growth of cancer. Unless millions of them become afflicted with cancer through their self-destructive practices, CANCER INCORPORATED will go bankrupt, and their 401Ks will suffer losses.

Further investigation will reveal that in addition to millions of citizens owning stock in cancer causing industries, cancer treating industries, and the funeral industry, hundreds more will be found serving on the boards of all three divisions of CANCER INCORPORATED—cause, treatment, and final disposition of the cancer riddled body.

Indeed, CANCER INCORPORATED is a growth industry in America, along with THE PRISON INDUSTRIAL COMPLEX and our expanding WAR MACHINE.

Soon our domestic market will be saturated and CANCER INCORPORATED will concentrate on growth through exporting to the rest of the world, those products that will cause cancer rates to skyrocket around the globe.

WAKE UP FELLOW AMERICANS!!!

Stop smoking, quit poisoning yourselves and your children and grandchildren with herbicides, fungicides, and other cancer inducing chemicals. Do not invest in any industry that contributes to the growth of cancer. Demand that our political representatives represent us, and our health and welfare, rather than the special interests of CANCER INCORPORATED.
