## EARTH KILLERS' DAY

Attn: OP-ED or LETTERS EDITOR

For Immediate Release

Contact: George H. Russell 936-295-5767 or 936-581-4302

EARTH DAY is the day when the chickens dance and sing, proclaiming the beauties of nature, and the day the foxes that guard the chickens dance and sing, celebrating the blind gullibility and stupidity of the chickens.

Like ARBOR DAY, EARTH DAY has become a day of pretending that "all is good on Planet Eden."?? On Arbor Day, the foxes line up before the cameras of the media, sprig and shovel in hand, pretending that the sprig will make up for the thousands of beautiful ancient trees that will be destroyed that very day.

EARTH DAY has become an even greater event that deceives the public into believing that corporate America has changed colors from brown to green. Why else would EARTH DAY events be sponsored by big oil, big military/industrial, big power, big chemical, and big automotive?

In actual fact these corporate chameleons paint their faces green, and paste on their toothy plastic smiles for the media and the gullible public, while their millions of corporate slaves go glibly about their jobs of destroying our air, our water, our forests, our soil, and ultimately our future.

It is their day now and thus the name should be changed to EARTH KILLERS DAY in order to expose the almost total emasculation of the environmental movement. The EPA has been sold to polluters by the POLITICAL WHORES that now seem to control America. Even the greatest destroyer of America the Beautiful? in history, the Army Corps of Engineers, has joined as sponsors of the EARTH DAY folly.

America has never been in graver danger. We have allowed dirty corporate money to purchase the loyalty and allegiance of those whom the people have elected to protect us, our children, and future generations from harm.

We are constantly bombarded with fear-mongering politicians, into focusing on terrorists living in caves on the other side of the world, while the most dangerous terrorists are our own eco-terrorists, the immoral mega-corporations and their political hacks that are hell bent on destroying our forests, our streams, our wetlands, our health, and our future as a viable nation.
